

# GRANITE STATE LIBRARIANS

NEW HAMPSHIRE STATE LIBRARY

July/August/September 2003

Vol. 39, No. 3

**FROM THE DESK OF THE STATE LIBRARIAN.....**On June 7<sup>th</sup> the City of Laconia celebrated the Centennial of the Gale Memorial Building, which houses the Laconia Public Library. The public library traces its roots to the Meredith Social Library founded in 1803 in Laconia. In 1878, the sum of \$1,500 was appropriated and six trustees were elected to oversee the operation of the library. In 1903, with the generous help of Major Napoleon Bonaparte Gale, the Gale Memorial Library Building was built using granite, hand-carved wood and stained glass. For one hundred years it has been a landmark in Laconia. On Saturday, June 7<sup>th</sup> under a white tent, the trustees and library staff along with guests celebrated the Centennial of the Gale Memorial Building. Robert Selig, Chairman of the Board of Trustees served as Master of Ceremonies for the event. In attendance were Mark Fraser, Mayor of Laconia, U.S. Senator John E. Sununu, Executive Councilor Ray Burton, and State Librarian Michael York.

Programs at the library, as part of the Centennial Celebration, included children's story times and local authors. Plans for a new addition to the building are underway. A selection of an architect is expected soon.

## **SHERM PRIDHAM RETIRES**

On May 27, 2003, 250 people turned out for a gala celebration at Yoken's Restaurant to wish Sherm Pridham, Director of the Portsmouth Public Library for 30 years, a wonderful retirement. The speakers (roasters) included city officials, library community colleagues, and lifelong friends. Sherm took some ribbing about his work at the library and was a good sport. Sherm said he plans to travel, garden, and stay connected to the library world through his mentoring activities with the New England Library Leadership Symposium

It's easy to get involved. Librarians, teachers, child care providers, and parents can share some or all of the titles with children and then have them vote for their favorite title during Children's Book Week in November. ### N.H. STATE LIBRARY 800 NUMBERS

The State Library was faced with many difficult choices during the recent State budget preparation for the 2004-2005 biennial budget. We were instructed to develop a budget for the biennium that would be 5% less than the current budget for 2004 and 2% less than the current budget for 2005. In making decisions on the cuts, the State Library staff chose for elimination those services and programs that would have the least impact on New Hampshire libraries. One service we have chosen to eliminate is the toll-free number that connects to the State Library in Concord. With the use of the NHAIS listserv and the use of e-mail, the toll-free number was considered less vital than other services being offered. During this difficult period, the need for cooperation among New Hampshire libraries is greater than ever. We are here to help in any way we can to facilitate that cooperation. The 800 numbers for Library Services to Persons with Disabilities in Concord, and the North Country Office in Lancaster will remain in effect. Thanks for your understanding.

Our task is to coordinate and publicize opportunities, recently we established a website to facilitate this task."

New Hampshire's application to establish a Center for the Book was approved by the Library of Congress in December of 2002. Since that time an advisory board has been established and plans are underway for a number of literary activities. New project ideas include an interactive version of a "Literary Map of New Hampshire," a Bookchat Listserv, and a Franco-American Book Festival, to be developed in cooperation with the American-Canadian French Cultural Exchange Commission.

## ***WebJunction* LAUNCHED**

Continuing the work of the Bill & Melinda Gates Foundation's U.S. Library Program, OCLC, the Colorado State Library, The Benton Foundation, Isopyh, and TechSoup have created *WebJunction*. This technology portal is a web-based, public access computing center that provides information about using technology effectively in a public setting. It is intended for use by public librarians and other organizations that help the public use computers to get information and resources.

*WebJunction* currently has five main areas:

Policies and Practices helps libraries keep track of the various political and environmental issues that are critical to sustaining public access to information technology. It includes tools and tips for handling hardware and software within the library, overview of basic and advanced networking options, security measures, and guides to basic troubleshooting.

Buying Guide helps librarians plan review options before making decisions to upgrade or change the existing installation. It includes reviews and peer opinions of hardware and software, purchasing advice, and information about buying discounted and used hardware and software.

Learning Center is an online learning environment that has online courses, downloadable lesson, training tips and other tools to enhance public access computing knowledge and skills. It can help staff acquire and update their own skills and help them learn how to teach the public.

Community Forum allows freewheeling interaction with peers around the country. Librarians can post and discuss items of mutual interest, attend online events facilitated by experts, and access career information, event calendars, and success stories.

Connecting to *WebJunction* is easy. You must have Internet Explorer 5.0 or higher OR Netscape Navigator 6.0 or higher. When you log on you can register to become a member, opt-in to help evaluate and develop the portal, or just search for information.

## LONG ISLAND COALITION AGAINST CENSORSHIP

Donald Parker, Co-coordinator  
Long Island Coalition Against Censorship

When planning your exhibits for Banned Books Week in September or a month in 2003 or 2004, you may wish to consider including the new edition of the exhibit, **Censorship in Schools and Libraries** published by the Long Island Coalition Against Censorship. The exhibit presents 32 illustrations, each one approximately 11" x 14" with accompanying text that is 11" x 14". The history of censorship in libraries and public schools highlights incidents of censorship that have occurred in the United States during the last one hundred years. Included are descriptions of the censorship of *Adventures of Huckleberry Finn*, *In the Night Kitchen*, *The Catcher in the Rye* and the novels of Judy Blume and Robert Cormier. The United States Supreme Court and lower court decisions are an integral part of the exhibit.

The new edition includes efforts to censor the popular Harry Potter's children's books. (In late December 2002, Harry Potter books were burned in Alamogordo, New Mexico), efforts by some school officials to censor student web sites, and the censorship of literacy selections on Language Arts examinations in New York State. In addition to the new cases, there is an update of censorship incidents in libraries and schools that occurred from 1990 to 2003. Quality copies of the exhibit have been reproduced which may be readily presented in the library on poster boards and retained as a reference source. If your space is limited, we suggest that you rotate the panels during the time the exhibit is on display. Excerpts from the exhibit and the cost are available from our web site, [www.the-licac.org](http://www.the-licac.org) under "Censorship in Schools and Libraries." Additional information can also be obtained via e-mail, [coalcen@juno.com](mailto:coalcen@juno.com) or writing to us at LICAC, P.O. Box 296, Port Washington, N.Y. 11050.

Franconia -- On July 5th, Franconia celebrated its annual 4th of July festivities with its traditional parade. This year the theme of the parade was Storytelling and Reading and the Grand Marshall was former Abbie Greenleaf Library Director, Amy Bahr, who was being honored for her many years of services to the town of Franconia. Executive Councilor Burton was at the parade and presented Amy with a copy of the *New Hampshire Redbook*.
